Title: Butterflies & Zoo: A Singles Day!

Venue: University of Florida Museum of Natural History & Santa Fe Teaching Zoo

Tour Includes: Luxury Transportation, Tour Director, Tickets and Lunch

Cost: \$99 w/lunch at Jason's Deli

Everyone is single on this tour – the shared mission for these trips is for everyone to make new friends and perhaps find new travel companions too! We'll get to know each other on the coach before touring these two venues.

Start your day with some fun-loving and friendly animals at the unique 10-acre animal sanctuary called Santa Fe Teaching Zoo in Gainesville Florida. The SF Teaching Zoo is home to over 75 different species of animals and is maintained by over 200 students enrolled in the college's premier Zoo Animal Technology Program. The zoo showcases a diverse collection that contains both native and exotic species for everyone to enjoy. Visitors enjoy the Bald Eagles, White-throated Capuchin monkeys, Galapagos tortoises, Matschie's Tree Kangaroo and Asian small-clawed otters to name a few. These species and many other mammals, birds, reptiles and amphibians are on display in a naturally shaded environment. The 1/4 mile trail through the wooded environment is lined with sawdust and is wheelchair accessible.

After our always delicious lunch at Jason's explore the spectacular Butterfly Rainforest in Gainesville while you mingle with your new friends. The Rainforest is a can't-miss living exhibit that features hundreds of free-flying butterflies and birds from around the world along with an assortment of other animals including turtles and fish to experience first hand. The lush landscape is planted in tropical trees and colorful flowering plants amid waterfalls and a walking path. Skilled interpretive staff are available to help answer questions and provide visitors with a personal and highly engaging experience. And as an added plus participate in a live butterfly release!
